

Dear Families:

We are excited to let you know that our class will be using Write About (www.writeabout.com) to help students become better writers!

On Write About, students will be able to:

- WRITE: For a variety of assignments, and for fun.
- GROW: Receive feedback from teachers and comments from peers.
- PUBLISH: Safely select an audience for their writing with teacher approval.
- PARTICIPATE: Read and respond to writing from peers.

Safety and Privacy measures on Write About

The only information required for student accounts is their first name, a username and a password.

- Teachers monitor student work/interactions and have control over what can be published
- Only first names display and only writing approved by the teacher is shown outside of our class
- Writers and commenters are registered teachers and students
- Guest Comments are moderated by the teacher

Giving students more daily writing opportunities will help them with literacy and communication!

Consider having your child show you their writing by signing in at home to www.writeabout.com.

Our Class Page is located at: writeabout.com/class/

Please sign, detach and return the section below:

I give consent for my child, listed below, to use a Write About account associated with their teacher
